CS 3020: Assignment 3

High-Performance Computing (HPC)

1. [ACM/IEEE Supercomputing](#) (SCXY) is the top HPC conference and is attended by >10,000 people every year. SC16 was held in Salt Lake City and SC17 will be held in Denver from Nov 13-16, 2017.

2. Go to the [SC16 web site](#). Identify the [technical papers](#), [workshops](#), [tutorials](#), panels, invited talks and other events you would like to attend. The full program can be found [here](#).

3. Choose one of the papers you're interested in. Write a 2-page description of the research, and what you think you might like to work on.

   Create a pdf document for your work, and hand in your assignment by typing on a CADE machine:

   ```
   1  $ handin cs3020 assignment3 assignment3.pdf
   ```

   Alternatively, use the web-based `handin`:

   https://webhandin.eng.utah.edu/index.ph
