

## Graphics and Visualization

1. Look at the SIGGRAPH 2016 website and the IEEE VIS 2015 websites. Identify the sessions, workshops, tutorials, and other events you would have liked to attend.
2. Choose one of the papers you're interested in. Write a 2-page description of the research, and what you think you might like to work on.

Create a pdf document for your work, and hand in your assignment by typing on a CADE machine:
