

iCarTunes

Sam Nazari

Cameron Currey

Tim Pruss

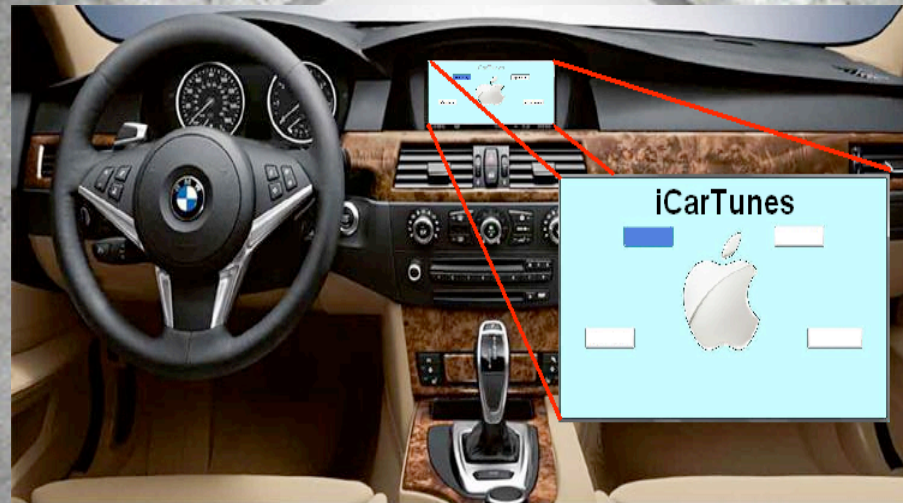

What is iCarTunes?

Imagine driving in your car and you hear a song on the radio you really like. With iCarTunes installed in the dashboard of your car, you can instantly download the song from iTunes, and have the song to listen to over and over again on an iPod.

Listen to Your New Download!

- Load song onto iPod
- Play song again in Car
- Take Song Anywhere
- Sync to Home Library

How it Works

- Decodes RDS Data in FM Transmissions
- RDS Data contains Song Title and Artist
- Use the RDS data to download from iTunes via satellite connection
