Assignment 3.6: Code.org Activities: Functions With Variables

Complete Code.org activities and write block definitions:

1. Follow your teacher's instructions for logging into Code.org. Navigate to the Accelerated Intro to CS Course (https://studio.code.org/s/20-hour)
   Complete all activities in Stage 15: The Artist 4

2. In your own words, record in your notebook what a variable is and how it is passed to a function (include the reason why the variable name within a function is different than the name of the value passed to the function).
