

# Assignment 7.6: Presentation in Materials Science and Engineering

---

Complete the following:

Research a new or interesting technology, project, or research in the field of Materials Science and Engineering (MSE).

Prepare and present a 2 to 3 min. presentation on a project you find.

Include:

- Description of what you researched.
- How it relates to MSE.
- Why it is of interest to you.
- How it has been or will be used (application).
- How it might help society.

Rubric:

- Project/Technology description. Should be clear, complete (4)
- Relationship to MSE. Should be a clear, well explained relationship (4)
- Why project/technology is of interest to you.(4)
- Description of the how the project/technology will be used (4)
- Benefit to society. If benefits are not obvious, explore the possible benefits (4)
